### See you soon

Romantic drama, 2019

This is a love story about footballer and one single mother. It is very interesting and emotional so this film makes me feel I am in love.

Film is directed by David Mahmoudieh and music in it is by Mark Isham. The film was set in Russia in 2017. There are two main actors, Liam McIntyre as Ryan Hawkes and Jenia Tanaeva as Lana Kalinine, but my favorite character is Lana's son because he is so cute and clever child. He is also keen on football and he adores footballer who is in love with his mother. He was like connection between his mother and that famous footballer.

I'm pretty sure this is a good film for people who enjoy romantic stories full of emotional, sad, but also and happy, beautiful moments and who love football in a way.

### Spider-man: No Way Home

Superhero film, 2021

Spider-man: No Way Home is about teenager Peter Parker whose secret identity is Spider-man. The film is set in New York in 2021. The film is based on Marvel's comic book "Spider-man". Peter was a normal person who liked to hang out with his girlfriend Marry Jane and his best friend Ned, but one day, while they were in museum with their class, Peter got bitten by radioactive spider. Then he got superpowers like wall running, shooting web from his wrist and spider-sense. Three years after when he defeated Mysterio, Peter's real identity got exposed all over the news. That caused a lot of problems for Peter. Citizens of New York started to hate him and call him killer. When he couldn't resist hate no more, he asked Restrting for help. While he was helping Peter something got wrong and action starts.

I love the acting in this film. Tom Holland starts as Peter Parker aka Spider-man and Zendaya plays the role of Marry Jane. My favourite character is of course Spiderman because he is superhero who has saved his city many times and even whole world once.

I think this is an ideal film for people who like action, super powers and science-fiction.

I assume every marvel fan already watched it so I don't have to recommend to them. If you like the type of film, go watch it you won't regret.

### Ant man

Science fiction, 2015

Ant man is a science fiction superhero movie from 2015 based on a Marvel comic book superhero of the same name. This movie is part of the MCU, a connected universe where every marvel movie takes place in.

The film is set in the United States and starts in 1989. It tells the story of Scott Lang, a smart and sneaky criminal with a good heart. He steals money from the rich and gives it to its original owners. His occupation led to his arrest and ruined his relationship with his family. But a former Shield agent, Hank Pym gives him a chance for redemption. Pym's former apprentice Daniel Cross took over Pym's nanotechnology factory and found about his Ant man project. He is looking to sell Pym's invention to the secret organization Hydra. Pym sees Scott as a perfect person to use the Ant-Man suit and tasks him of stealing all the other suits from Cross. Will Scott be able to stop Hydra from gaining this secret technology?

I loved the acting in this film. It is comedic but also serious at times. Paul Rodd stars as Scott Lang and Correy Stoll stars as Daniel Cross, the villain. I loved Rodd's performance, he brought the forgotten comic book character back to life and he was definitely my favorite character. The film has amazing effects and exciting stunts, while making it very believable. The soundtrack wasn't that memorable. The film is ideal for Superhero or action fans.

I wouldn't recommend it to people who like a dark and intriguing story as this film's story is pretty simple and lighthearted.

The call of the wild is about a dog named Buck. The film is based on a Jack London's novel of the same name. The film is set in Alaska in Klondike Gold Rush during the 1890s.

It tells the story about a dog named Buck who is stolen from his home in California. Buck is played by a 51-year-old former Cirque de Soleil performer named Terry who was digitally transformed into a St. Bernard Scotch shepherd mix. He is not a real dog but he walks and barks like a dog.

I love the whole plot in this film. Harrison Ford stars as John Thornton. My favourite character is Buck, the dog, because he is big-hearted, very cute and smart. Buck experiences the adventure of his life as he finds his true place. The film has amazing special effects.

I think this is an ideal film for people who love dogs and adventure. It is sad but the story is very good.

### The Maze Runner

Dystopian science fiction, 2014

The Maze Runner is a film trilogy shot in the United States. The first movie was released back in 2014. The second movie was released a year later and the last one was released in 2018. Why I like this movie is because non-stop something happens!

My favourite character is named Thomas. He is the main character waking up in an unknown elevator taking him up at high speed. The elevator opens and he sees a group of people staring at him. They don't know him and neither does he know them. The next thing he sees are big walls everywhere, on all sides. One man from the group explains him that they are trapped in the centre of a maze and every morning those walls open and let them go and search in the maze in order to try to find a way out, but none of them ever has succeeded. In addition to that, there are monsters lurking around within the maze, and it makes the task of finding a way out even more difficult.

What do these people, a doctor and zombies have in common? You must watch the film to find out.

If you are searching for a good science fiction movie, then this one will make you happy.

The movie is about the surrealist Mexican artist Frida Kahlo.

It is based on a book "A biography of Frida Kahlo" by Hayden Herrera. It follows her life from 1992 until her death. It tells the story of Frida's private and professional life and her relationship with her husband Diego.

The movie went on to win Oscar for Best Make-up. Colorful costumes and original make-up are inspired by Frida and her style of dressing.

Salma Hayek stars as Frida is just brilliant as well as Alfred Molina who plays the role of Diego.

My favourite character is Frida because I really enjoyed watching the all ups and downs in her life.

This is an ideal film for young, independent and brave ones who know their life goals and want to succeed in them.

# Split

Psychological thriller, 2017

The movie Split is about a man with 23 different personalities! Kevin, the main character is diagnosed with dissociative identity disorder. The main cast of the movie are James Mcavoy (Kevin) and Anya Taylor Joy (Cassie).

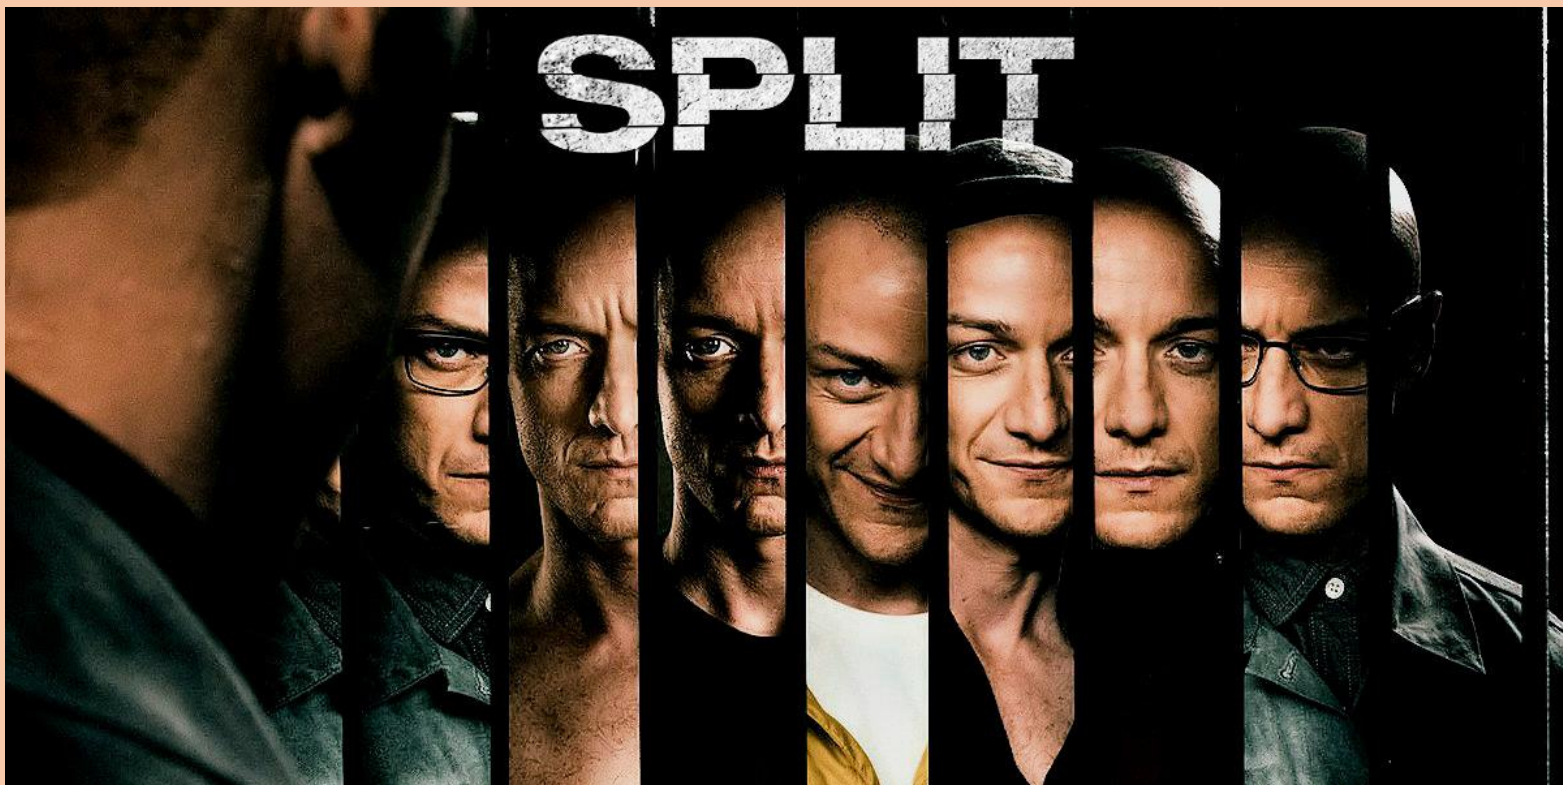

The plot is about the man with DCD who kidnaps three teenagers and keep them in the basement. The girls are surrounded with unexpected switching of Kevin's personalities which includes childish behaviour of 6-yo boy to extremely aggressive one.

The thing that amazes me is the acting of the leading actor - James Mcavoy, who has to switch 23 different personalities in a short amount of time during the filming.

Thing that I like about this movie is that you cannot predict what is going to happen next. I would highly recommend it to people who are enjoying unpredictable plot twists.

I would rate this movie with ☆☆☆☆☆

### Scarface

Crime drama, 1983

Scarface is the film about a Cuban refugee who escapes from Cuba to Miami and becomes a drug boss. The film is based on the 1932 version of Scarface. Apart from talking about the mafia underworld and Tony Montana's success in the mafia, the film is also about his family relationship with his sister and mother, but also his best friend.

The main roles in the film are played by Al Pacino as Tony Montana, and Michelle Pfeiffer as Elvira Hancock. The film was directed by Brian de Palma. The film takes place in Miami, New York and some parts of South America. There are several songs in the film, but one of the most popular is *Push it to the limit*, which you have the opportunity to hear in the scene in a cafe. There are no special effects in the film but there are too many violent scenes depicting brutal murders.

Al Pacino is the bearer of this film and, as in every role, he played his character, he managed to make us talk about his role even today. Al Pacino was nominated for a Golden Globe for Best Leading Role. Also, Michelle Pfeiffer excelled in her role and became famous thanks to this film. Steven Bauer was also nominated for a Golden Globe for his role as Manny, but in a supporting role.

This movie is one of my favourite after The Godfather. I have watched this movie more than ten times. Still, I would recommend this movie only to those who like to watch crime movies. Because I think people who don't like mafia movies will not like it because of some scenes. The only thing I resent about this film is that it lasts over 3 hours! I think it's too much for one film.

Let my rating of the film be 8 out of 10.

# THE FAST AND THE FURIOUS

Adventure, crime, 2001

The fast and the furious is about a police officer Brian O'Conner who is undercover investigating a local street racer Dominic Toretto.

The producer Neal Moritz got an idea for this film and the plot is based on the article he read in 1998 about illegal street racing in New York.

The plot starts when Brian flirts with Dominic's sister but they get in a fight. That same night, Brian gets a modified 1995 Mitsubishi Eclipse to an illegal street race. Brian and Dominic start racing, logically Dominic wins but the LAPD arrives before Brian gives up his car. Later he saves Dominic from the LAPD. They get really close for such a short time.

Will Dominic, with his good reputation in the neighborhood, find out Brian's a cop and that such a good friend is betraying him?

Cast away is an American film directed by Robert Zemeckis. The plot follows Chuck Noland (Tom Hanks), an employee of the courier service, whose plane crashes on a desert island during a business mission, where he remains trapped for years trying to survive. He does really well on the island and masters the skill of spearfishing and rafting.

The film was well received by critics and made good money at the box office, earning Hanks a Golden Globe and Oscar nominations.

The film has no music and almost no dialogue! There are some touching and beautiful moments. This movie is very interesting and keeps your attention because you don't know what will happen at what moment.

### Skyfall

Action, Adventure, 2012

Skyfall is about a secret agent James Bond who is also called agent 007. The character of James Bond interpreters Daniel Craig who is very famous because of James Bond films that he stars in. His boss is called M and she is like a ghost, no one knows anything about her and her character interpreters Judi Dench. The film is based on a book named the same as the film.

In this film the main character gets hit by his female colleague Naomie Harris, but that happens quite by accident. After that he is getting back after a long time. And now his loyalty to his boss M is tested when her past comes back to haunt her. Now agent 007 must track down and destroy the treat, no matter how personally that costs.

Personally, I have always loved action movies, but I know that when it comes to James Bond movies there have always been two types of people the one who adores them and the one who does not love them at all. If you belong to the first group of people then I highly recommend to watch it.

#### The Real Triple Agent Who Inspired 'James Bond'

Where did Fleming get the inspiration for the character? Many fingers went into the pie, but the biggest inspiration was a Serbian triple agent. His name was Popov... Duško Popov.
